

# Next Generation Project Managers

## One Day Core Project Management Training Courses

*Highly interactive and intensive one-day course to help you understand what future Project Management is REALLY about. We start off by quickly getting everyone up to speed by drawing on practical examples of where traditional techniques have failed to deliver the required results. We use some real world examples to help bring the material alive and relevant to your organization. We finish the session with one of our soft skills modules with some takeaway materials to add another dimension to the training.*

### Typical Course Timetable

- **Session 1 – The Challenges ahead facing Businesses and People Tomorrow**
  - o What are they and what do they really mean?
  - o How do I start to detect them, anticipate them and develop sensors to monitor them?
  - o What does our organization do with them when we detect them?
  - o How do we incorporate this thinking into the corporate culture and infrastructures?
- **Session 2 – Enhanced Leadership Skills and Competencies**
  - o What are enhanced leadership skills and competencies that will be needed in the future?
  - o How can I prepare myself, my teams and my organization to build these capabilities?
